PAPER
Yoichi Habata et al.
Synthesis of diazahexathia-24-crown-8 derivatives and structures of Ag⁺ complexes

FRONTIER
Joshua S. Figueroa and Christopher C. Cummins
A niobaziridine hydride system for white phosphorus or dinitrogen activation and N- or P-atom transfer
Dalton Transactions...

*Dalton Transactions* is the fastest journal in the field. Publication of full papers is rapid, with average times to publication ($t_{\text{pub}}$) of just 85 days from receipt of manuscript.

For preliminary results, published as Dalton Communications, time to publication is also fast with $t_{\text{pub}} = 45$ days. Coupled with new weekly instalments, *Dalton Transactions*, is the only place to read the latest in inorganic chemistry research.

Publication states include both printed and online versions, each with a new easy-to-read format. The improved legibility enables readers to browse the articles quickly and effortlessly.

...the essential element
